### Projects

2017/10 - 2018/01

<https://github.com/szymonpiechaczek/fpsMultiplayer>

Multiplayer First Person Shooter game made in Unity for Software Engineering course. Together with my colleagues I have created game using Unity Engine and Photon Unity Networking. Moreover, we have used Visual Studio for scripts, Trello for organize weekly tasks. It learned me how games work, how to create multiplayer logic and handle conflicts on GIT. In addition, it helped me to deal with time pressure.

2017/10 - 2018/01

Second project is for Design Patterns course. We have learned how to use design patterns in practice. We used patterns like: Strategy, Factory, State or Facade. It let me get a knowledge about using this.

2018/01
